OSA-2104-62

9 November 1962

CONTRACT NO. BB-475
CHANGE ORDER #1 TO EXHIBIT 62-3

ITEK Laboratories
A Division of ITEK Corporation
Lexington, Massachusetts

Gentlemen:

As a result of your letter request of 16 October 1962 (No. 8230-62-13C) based on discussions between the technical representatives of the parties, and pursuant to Article 2 of the General Provisions of Contract No. BB-475 entitled CHANGES; the tolerance requirements for test target densities set forth in Paragraph II B of your proposal No. 3343.01 dated 6 October 1961 are reduced from the present level of $\frac{1}{2}$.02 (density) to $\frac{1}{2}$.05 (density).

You are requested to submit your amended cost proposal incorporating this change.

Very truly yours,

25X1A

Dear Jim:

As a result of a telephone call received 2 October 1962 from [redacted] Technical Monitor on Production Order 62-3 of Contract BB-475, we have received technical authorization to reduce the tolerance requirements of the test target densities from the present level of ± 0.02 (density) to ± 0.05 (density.) This tolerance complies with the MIL-STD-150A. The intent of this authorization was to insure compatibility with the MIL-STD-150A.

Will you please supply me with a waiver at your earliest convenience. Thank you for your consideration in this matter.

Very truly yours,

[redacted signature box]
